• Risk management & compliance operations	• Stakeholder/vendor communication	• Incident documentation and coordination
• Process improvement & documentation support	• Law enforcement & EMS coordination	• Operational readiness & continuity support

SELECTED RESEARCH

SSRN Working Paper – Single-Payer Health Care and the General Welfare Clause

Authored an independently distributed working paper analyzing constitutional foundations, public policy feasibility, and federal governance arguments related to single-payer health care; posted to SSRN in December 2025 and received 189 downloads and 324 abstract views as of September 2026.

PROFESSIONAL EXPERIENCE

Emergency Response Coordinator — GIS/Data Quality & Risk Management Support

Adecco Group | December 2023 - April 2024

- Supported GIS-based mapping and compliance databases used for risk-management operations for clients including TC Energy and BP North America.
- Managed high-volume reporting and documentation workflows supporting oil and natural gas pipeline operations, regulatory compliance, and operational readiness.
- Conducted data collection, quality assurance, auditing, and discrepancy resolution to maintain accurate records for daily call team operations and audit traceability.
- Co-developed a SharePoint resource with a coworker to streamline recurring tasks, improve workflow consistency, and support team efficiency.

Security Officer — Site Safety, Patrol, and Stakeholder Support

Signal Security | January 2022 - December 2023

- Ensured compliance with facility policies, access-control procedures, safety protocols, and site-specific operating requirements while patrolling a 2.5-square-mile shopping center.
- Served as a primary point of contact for safety concerns, incident escalation, and law enforcement coordination, including communication with police, EMS, vendors, employees, and site leadership.
- Documented and responded to safety incidents, policy violations, and emergency situations while supporting continuity of operations and adherence to organizational procedures.
- Supported loss prevention efforts by coordinating with retail tenants, vendors, and site personnel throughout the shopping center.

Security Officer — Facility Access and Incident Response

American Guard Services | October 2021 - January 2022

- Managed facility entry points, monitored theft-related incidents, and conducted routine premises checks to support safety, access control, and loss prevention operations.
- Provided escorts for pharmacy cash movements and coordinated police/EMS response for facility incidents, ensuring timely escalation and adherence to site safety procedures.

PROFESSIONAL EXPERIENCE CONTINUED

Adoptions Counselor — *Public-Facing Client Support*

Kansas Humane Society | September 2021 - October 2021

- Used computer-based adoption systems to support animal placements, maintain accurate records, and counsel adopters on animal health, care needs, and transition expectations.
- Conducted pre- and post-shift facility walkthroughs while maintaining kennel cleanliness, bedding, hydration, facility organization, and animal welfare standards to support safe and humane daily operations.
- Worked as part of a small counseling team to support animal adoptions, coordinate daily responsibilities, and provide consistent adopter guidance.

Security Officer — *Continuity, Access Control, and CCTV Monitoring*

Allied Universal / Smart Security, Inc. | September 2018 - January 2021

- Supported vendor transitions while contracted to Celebrity Cruises by sharing site knowledge, maintaining continuity of operations, and carrying out standard security duties.
- Monitored CCTV systems, managed access-control responsibilities, conducted patrols, and supported daily site safety operations across assigned client locations.
- Oversaw entry operations at Meritrust Credit Union, monitored 30 CCTV feeds, assisted with access control, and completed patrols to ensure outer doors remained secure.

Security Officer — *Aviation, Cruise, and Emergency Response Operations*

U.S. Security Associates | November 2015 - September 2018

- Monitored approximately 60 CCTV feeds, managed gate access control at Textron Aviation, and responded to emergency incidents including bomb threats, chemical spills, and medical emergencies.
- Patrolled 3–4 square miles of aviation facility grounds by vehicle and foot to support safety, security, access-control, and incident-response protocols.
- Managed guest and contractor entry at Celebrity Cruises, monitored approximately 50 CCTV feeds, supported HR and management during events, and trained security officers for second- and third-shift duties.
- Transitioned between client sites during an active service cycle, quickly adapting to new post orders, site procedures, access-control requirements, and operational expectations while maintaining continuity of security operations.

MILITARY SERVICE

Network Switch Systems Operator (25F)

U.S. Army | June 2011 - June 2015

- Supported mission readiness through vehicle maintenance coordination, communications equipment accountability, and team-based operational support.
- Maintained accountability for approximately \$2 million in communications equipment, including storage, upkeep, distribution, and readiness tracking.
- Conducted early warning missile detection during a Middle East deployment at a Patriot Missile site, contributing to site security, emergency preparedness, and operational continuity.
- Enforced deployment access-control procedures by monitoring personnel entry and exit, verifying authorization, and supporting compliance with site security protocols.
